A STREET FAIR.

The Danville Advocate Suggests a Unique Exhibition—Let's Try It in Maysville.

So far there has been no move towards holding a fair at the Maysville grounds this fall.

Danville is not going to have a fair either—that is, nothing of the old-time exhibition,—but the Advocate suggests something unique, in Kentucky at least, in the way of a street fair. Here is what the Advocate says on the subject:

"If there is to be no county fair this fall, why not have something else to attract a crowd?"

"A street fair is just the thing. It is better for drawing purposes than a crayon pencil or a mustard plaster. Have one, see the benefits the city will derive from it and each succeeding year will see the fair only on a grander and more magnificent scale.

"Three or four years ago an enterprising Yankee appeared in Coshocton, O., and spoke of a street fair. The people were amazed. They had never heard of such a thing before. Yet the enterprising Yankee got the ear of the enterprising merchants, and in less time than it takes to write it he had convinced them that it was a good thing and Coshocton had the first street fair of the West.

"Did it go? Well, you should have seen the people flock to that town from all over the State. The fair lasted three days and in that time it is estimated that fully 100,000 strangers visited Coshocton, and it has a population of only 5,000. It was so successful that street fairs have been held every year since, and the crowds been larger every year.

"Many Ohio towns have held street fairs among which are Wooster, Loudonville, Newcomtown, Mansfield, Canton, Youngstown, Steubenville, Mt. Vernon and Zanesville. Every place it has been a great success and is being held each year.

"The idea of a street fair is this: Take, for instance, Main street from Second to Fourth and Third street from Walnut to Broadway, and at intervals of twenty feet let every merchant of any consequence erect a booth for the display of his wares, and let every third or fourth booth be devoted to the display of some product of the farm or home or kitchen or orchard, and offer a small prize for the best ear of corn, or hand of tobacco, or the finest horse, hog, cow, sheep, &c. The cost will be small. Then look at the returns. It will attract hundreds of people—some through curiosity, others because it is a fair.

"The cost of erecting a booth and decorating it will not be more than \$15, and any merchant can afford to spend that amount when the harvest promises to be golden.

"In order to offer some amusement to the visitor, foot races, bicycle races, sack races, pie-eating contests, in fact, everything pertaining to the country fair, can be given with little cost. Have special days, such as Children's Day, Oddfellows' Day, Perryville Day, Danville Day. Offer a prize of some kind to the largest secret organization attending in a body outside of the local orders. Engage good bands of music, and at night arrange for concerts at some public point. All that is needed is for some enterprising business men to take hold of the matter and push it to the end and it can be made a glorious success."

Facts and Figures.

Paris gardeners buy toads for use as insect destroyers.

Doctors say that pure alcohol is the best disinfectant for the hands.

About one-third of the streets of Paris are ornamented with trees.

The Lord Lieutenant of Ireland has a yearly salary of £20,000 and expenses.

Belgium, 11,000 square miles, is about the combined size of Massachusetts and Rhode Island.

The public debt of France is the largest in the world, and amounts to about £1,600,000,000.

After 1899 it will be illegal to use the State seal and coat of arms of Massachusetts for advertising purposes.

Paper made from seaweed is a growing industry in France. It is so transparent that it has been used in place of glass.

Mrs. W. H. DURETT has been quite sick at her home in the county, but is now better.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. —Rev. Dr. E. Forman, late of New Orleans, is visiting relatives at Washington.

—Mrs. James Fox, of Dover, was visiting friends in this neighborhood this week.

—Rev. E. L. Powell and wife, of Louisville, have gone to Virginia to spend the summer.

—Miss Irvine, of Tollesboro, is visiting the family of her uncle, Mr. James Irvine, at Washington.

—Miss Mary P. Chambers has been the guest of Mr. and Mrs. Benjamin Longnecker this week.

—Mrs. Charles Hoffman, of Louisville, is the guest of Mr. William Davis, of West Second street.

—Miss Lottie Cartmell, who has been teaching in the Ohio S. and S. Orphan's Home, is at home for the summer.

—Mrs. Bettie Smoot and daughter Miss Minto, of Louisville, arrived this week to spend some time with relatives.

—Says the Millersburg correspondent of the Paris Kentuckian: "Miss Edna Hunter leaves this week for her home in Washington, Ky. She hopes to go on with her elocution work, and we predict a brilliant future for her, especially if she goes on the platform."

—Mr. and Mrs. John T. Short left yesterday afternoon to be present at the marriage of their niece, Miss May Allen, to Mr. Richard Luthy which took place at the family residence in Newport last evening at 8 o'clock. Mr. and Mrs. Luthy will spend their honeymoon at Niagara Falls.

AN HISTORICAL PEN.

Representative Smith Holds the One Used by President in Signing the Declaration of War.

Representative William Alden Smith, of Michigan, is made the proud possessor of the pen with which the president, the speaker of the house and the vice president of the senate signed the bill declaring the existence of war between the United States and Spain. The speaker gave Mr. Smith the pen, and he took it to the senate, when at his request Vice President Hobart also used it in attaching his signature, and later President McKinley made the final approbation with the same.

Figs Should Always be Washed.

[New York Evening Post.]

Figs, dates and prunes are among the dried fruits which are often served unwashed. In point of fact, only the most expensive varieties of them are safe to eat without a thorough cleaning. Figs, in particular, should be carefully looked over, the very black parts discarded, and the others treated to a strong flow of water from the faucet. After being left in the colander a few minutes, they can be laid on a clean linen towel or old napkin and dried. One careful housewife known to the writer keeps a fruit brush and actually scours each fig before she permits its appearance at the family board.

Ho! For the Old Settlers Reunion.

If you desire to spend a pleasant day on the Fourth of July be sure and go to the old Ruggles camp ground. Good singing, speeches and best of all good eating. The Maysville drum corps will go nine or ten strong, and so will the Springdale battery, commanded by C. P. Degman. Come and let's make it a gala day. While Shafter is taking Santiago let's take old Uncle Dud Tolle by storm.

The camp meeting privileges will be let on that day. Any one desiring to go report to I. M. Lane at M. E. Church tonight. 50 cents round trip.

Progress of Missions.

In a village, three hours' distant from Ningpo, China, a Buddhist temple, its idols and gardens attached, have been voluntarily assigned by deed of gift to the Free Methodist Mission, of which Rev. W. Heywood is in charge, for use as a Christian mission station. The head men of the three villages surrounding the temple have given their written consent to the establishment of the mission there.

Y. P. S. C. E. Christian Endeavor Convention, Nashville, July 5th to 12th.

For the above occasion the C. and O. will sell round trip tickets, Maysville to Nashville, at rate of one fare, \$10. Tickets on sale July 1st to 6th inclusive. Return limit July 31st, with privilege of extension until August 15th, and stopovers at Mammoth Cave Junction.

Mr. A. M. DUDLEY and Miss Nannie D. Richardson, of Flemingsburg, were married Wednesday afternoon at the residence of Mr. and Mrs. Harvey G. Wells, of East Third street, Rev. D. D. Chapin officiating. The couple are prominent in Fleming's social circles, the bride being a daughter of Mr. Wood Richardson and the groom a son of Mr. N. S. Dudley.

BANANAS.

Properly Prepared, Make a Palatable Breakfast Dish.

Nothing is so cheap now as the luscious banana, and as a breakfast appetizer it is without rival. Fried they are delicious. Cut in two lengthwise, dip in a paste composed of two eggs, one level cupful of flour, one-half cupful water, one-half teaspoonful soda dissolved in hot water. Fry in boiling lard to a delicate brown.

Baked they are equally fine. Select large, perfect bananas, lay on a pan with just water to cover the bottom well and produce a steam. Bake in a quick oven until the skin is brown and ready to burst. Peel quickly, lay on a flat platter with young lettuce leaves, and while still hot sift with sugar and squeeze generously with lemon juice. When cold place on ice until served. They are fine and tart and should be of a delicate creamy tint.

Slicing bananas half an hour before breakfast and sifting well with sugar and a wine glassful of strong lemon juice and a little ice water greatly improves their flavor. Serve ice cold.

Electric Park.

There was a large and delighted audience at this park last night. Society was well represented. Now these stock phrases might as well be discontinued as there is always a large audience at the Electric Park, and the audiences are always delighted, while society is represented at every performance.

Anyway there will be a change in the program to-night,—some new songs, a new curtain raiser and new sayings. "Dainty Baby Howard" is the talk of the town by her splendid singing and dancing. "The Howards" are just as popular as ever, and "Seeker, Wilkes and 'Rastus'" are as big favorites as ever.

Go out to-night. A ticket to the vaudeville theatre and a four mile ride on the street cars is only 10 cents.

OFFICE HOLDERS BARRED.

No One Holding a Federal or State Position Will be Appointed Election Commissioner.

FRANKFORT, KY., June 29.—The Election Commissioners have made a ruling that no person holding Federal, State, county, city or district office is eligible to the office of County Election Commissioner.

Many county officers have been recommended as commissioners and their friends are being requested to withdraw their names and recommend persons holding no office.

This must be done before July 11th, the last date on which the board will receive such recommendations.

Notice to Shippers on Steamer Laurance.

To-morrow, July 1st, 1898, the new special tax law goes into effect. Therefore all goods or merchandise sent down to said steamer, except the usual small packages sent down to and accompanied by passengers aboard must have bill of lading for signature of Captain. This bill will be stamped by boat before signing. Any other bill signed, stamp must be affixed by shipper before signature. Shippers will please bear this in mind and see that packages are delivered to boat and not left on float. This is Government law and cannot be evaded.

Fourth of July Excursion Rates via C. and O.

For the above occasion the C. and O. will sell trip tickets at rate of one fare, except to points east of Gauley, one fare to Gauley, plus one and one-third fare Gauley to destination.

Tickets will also be sold to all points within 200 miles of Cincinnati, on the Big Four, B. and O. S. W. and C. H. and D. at rate of one fare for the round trip.

Tickets on sale July 2, 3 and 4. Return limit July 5.

Notice to Shippers.

Commencing July 1st each bill of lading or receipt for freight issued must bear an internal revenue stamp of 1 cent. The transportation companies will furnish one stamp for each original bill of lading or receipt. Should shippers want duplicate or triplicate bills, stamps must be furnished and cancelled by them, otherwise they cannot be issued.

THE SHIP IN PROCESSIONS.

It is an Old Custom and Still Popular, Dating Back a Century or More.

A pretty feature in Washington processions, says the Star, political and national, for many years, has been the "ship of state," or "constitution," as a float, often complete in its appointments, armed with miniature cannon, and manned by sailors. Sometimes the intervals between the appearance of such floats have been of such length that the ship is hailed as an entirely new figure. Under the name of "Constitution" or "Union," however, the ship float has been a feature in political demonstrations in the United States for over a century. As far as known the first exhibition of the kind (at least in this part of the country) was in Baltimore in 1788, and the credit of its introduction belongs to Commodore Joshua Barney, who, though a mere boy, was a valiant officer in the revolution, and distinguished himself in the war of 1812 with his flotilla. In that year the ratification of the constitution was the great question before the people, and there was a division of sentiment on it, those in favor of its ratification as framed forming the federalist party. In Baltimore a great federalist demonstration was projected—a procession from the eastern part of the city around what is now the harbor to the hill south of the basin, and a mass meeting. Commodore Barney took a prominent part in this affair, had his ship in line under the name of the "Federalist," and the name of Federal Hill naturally attached to the vicinity to which the ship led the line and where the meeting was held.

NO MAP OF UNITED STATES.

A Possible Explanation of a Bermuda Boy's Ignorance of American History.

"The school children of the Bermudas know nothing of American history," says a New York woman who has just returned from Hamilton, according to the Sun. "One day I stopped and talked with a bright little colored boy on the street. The Bermuda negro, you know, is superior in intelligence to the southern negro of this country. He has neither the thick lips nor the flat nose of our American negro. His superiority is accounted for by the fact that he has in his veins the blood of the Indians captured in King Philip's war and taken as slaves to the Bermudas.

"Do you go to school?" I asked the boy.

"Yes'em."

"Who owns these islands?"

"England."

"Who rules England?"

"Queen Victoria."

"Where are the United States?"

"South of Canada."

"And do you know who is president of the United States?"

"Yes'em; George Washington."

"When I had visited one of the little schools at Hamilton I did not wonder that Washington was the only American president the boy had heard of. On the walls were maps of every important country in the world but our own, and I found that the teachers said as little of the United States as they could."

DOCTOR AND A MAN.

The Aged Discoverer of Collodion Recently Passed Away in Massachusetts.

The discoverer of collodion died in Dedham lately, notes the Boston Herald. He was Dr. John Parker Maynard, who had been the leading physician there for many years. This discovery was made while Dr. Maynard was still a medical student. He had the conception in his mind at that time, and engaged in a series of experiments in a little building which he erected outside Dedham village, and finally brought them to a success. His object was the application of collodion to operations in surgery, and he demonstrated his usefulness here by applying it in 1847. He had sought to aid surgery in this way rather than to achieve pecuniary advantage, and hence gave collodion without price to the medical profession.

Dr. Maynard was a modest man and never asked credit for himself for what he had done. He thought that any advantages that came from it should be the property of his profession in the interests of human suffering. Collodion has grown into a much wider use since that time, but it is probable that there is less general knowledge of the man to whom the world owes its introduction. Dr. Maynard was never forward in enlightening them as to the facts of its origination. He died at the age of 81, after a long and useful and most honorable career in surgical and medical practice.

Why His Head Ached.

A physician in Philadelphia analyzed a black japped hat worn by a patient suffering from headache, and found that it contained three grains of one of the lead salts.

SILENCE LAW IN BERLIN.

In That City Legislation is in Force on All Sorts of Everyday Noises.

No other large city is as quiet as Berlin. Railway engines are not allowed to blow their whistles within the city limits. There is no loud bawling by hucksters, and a man whose wagon gearing is loose and rattling is subject to a fine. The court have a large discretion as to fines for noise-making. The negro whistlers who make night shrill and musical in Washington would have a hard time of it in a German community.

Strangest of all, piano playing is regulated in Berlin. Before a certain hour in the day and after a certain hour in the night the piano must be silent in that musical city. Even during the playing hours a fine is imposed for mere banging on the piano.

In Paris it is only during the carnival and on fete days that the sound of the French horn is tolerated. At other seasons it is rigorously prohibited by the police.

German intolerance of noise is not a recent thing. Wallenstein, who demanded absolute quiet, had 130 houses torn down in Prague and sentries posted all round in the distance, to secure silence. There is a tradition that still further back in time a Bohemian shepherd, seeing the monk Adelbert asleep, blew on his pipe in mischief. The monk called down the curse of deafness on him.

UNLESS POLICE INTERFERE.

A Spanish Officer Who Thought He Could Clean Out the Whole United States.

"I chanced to hear a conversation a few weeks ago in Havana that was both interesting and amusing," remarked a gentleman who was until recently connected officially with the United States consulate at Havana, to a Washington Star reporter. "While dining in a cafe one evening my attention was attracted by a Spanish officer and an Englishman seated at an adjoining table. The Spaniard, who was a well-known officer, was somewhat flushed with wine and he spoke in loud tones, his remarks being fraught with braggadocio. The Englishman was also a well-known resident of Havana, having large business interests there.

"I cite the incident," continued the ex-official, "merely to show that the Spaniards feel thoroughly confident that they could make a strong, if not overpowering, showing in case of war with this country. The subject was discussed by the Spaniard and the Englishman for several moments, until finally the former sneeringly said: 'Why, I could land in Florida with 25,000 men and walk right through the whole United States.'"

"The reply of the Englishman was the amusing part of the incident.

"Yes, you could," he said in a most sarcastic manner; 'yes, you could—if the police didn't stop you.'"

FOUND HIS WAY HOME.

A Lonely Fox Hound That Traveled a Distance of Five Hundred Miles in Six Weeks.

"Did you ever hear of a dog traveling from Mississippi to Kentucky?" said a gentleman from Houstonville recently to a New York Telegram reporter, "without a human companion?"

"Well, I heard Col. Tee Carpenter tell of a wonderful hound of his. He says that some years ago he sold a hound to a gentleman of Corinth, Miss. The dog broke away from the expressman on the train when in northern Mississippi and was not heard of for some time. The Mississippi gentleman wrote to Carpenter and asked what was the reason the dog had not been sent. Carpenter looked the matter up and found that the dog had jumped out of the express car while the train was running at full speed. About six weeks afterward the hound showed up at Carpenter's house in Lincoln county. He had come home alone, being guided by that peculiar instinct with which dumb animals are gifted. He had traveled fully 500 miles. The dog was never of any value thereafter and he was completely prostrated by the trip. He looked like a skeleton when he got back to Kentucky, and could never afterward run fast enough to keep up with Carpenter's other fox hounds."

Civilization and Nature.

Civilization is transforming nature in surprising ways, says an exchange. The dehorning of cattle is an example, as this practice is gaining favor so rapidly that hornless cattle may be expected soon to become the rule rather than the exception. The first objections were that it is cruel and unnatural. The early method of dehorning with a saw was undoubtedly slow and painful, but specially constructed clippers are now used that often remove a horn in a single second, and with so little suffering that feeding is continued as usual and the operation is really humane, the frequent injuries in herds from goring being prevented.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

BLOOD'S TEST OF BLOOD.

In the relative makeup of navies the Pall Mall Gazette draws a lesson that is not without its grim bearing upon the world's immediate, as well as remote, future. The Gazette says:

The war between the United States and Spain is a copy on a very reduced scale, and with some slight modifications, of a war between England and France. The great British superiority in battle ships and unarmored cruisers as against France is faithfully produced in the American navy as against Spain. The great French advantage in armored cruisers finds its small, but the crop prospect is very good. Meadows are being cut and some timothy has already fallen before the mower. Pastures are all in excellent condition. Potatoes and gardens generally have improved.

That there will be no faltering on the part of our soldiers has already been demonstrated at the La Quasina fight and elsewhere. There is no doubt as to how the war will terminate.

There is no improvement in the condition of Mr. J. D. Muse's little daughter who is sick with diphtheria. She is critically ill.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. James Wood, druggist, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

KENTUCKY CROPS.

Wheat About All in Shock—The Rains Will Improve Things—Weekly Report of the Weather Bureau.

Dry weather with temperatures at, or slightly below the normal, prevailed throughout the State until the last few days of the week. On Saturday, the 25th, showery conditions set in and continued Sunday and Monday. Heavy rains occurred at a great number of places Saturday night and Sunday, causing considerable damage to wheat in shock and bottom land crops. Until the rains began the weather was perfect for the cultivation of crops and harvesting purposes. Wheat is nearly all cut and shocked, and in several localities a portion of the crop has been threshed, the yield turning out very well.

The late transplanted tobacco was generally reported, as unpromising, but it is thought the rains will cause it to improve rapidly. Corn is generally in very good condition, the early planted fields being laid by, or receiving the last cultivation, and the late planted, clear of weeds and grass. Early planted tobacco continues in excellent condition, though worms are beginning to be troublesome in some localities. Oat harvest is in progress, and great quantities of clover and hay had been saved previous to the rains. Hemp and all minor crops have improved, and vegetables are plentiful and of excellent quality.

Western Section.—The weather has been generally very favorable. Early corn is all laid by, wheat harvested, and some farmers are threshing. All crops are doing well. Oats are being harvested, but will not turn out as well as was expected. Corn is in excellent condition, with good color, but somewhat irregular on hilly lands. Tobacco is generally doing well, except the late transplanted, which is unpromising.

Central Section.—Reports are somewhat conflicting, but the prevailing opinion among our correspondents is that the weather was generally beneficial. Tobacco was the main staple to suffer from lack of rain, of which there was practically none until the 25th and 26th. The early planted is in good stand and growing well, but the late crop is inferior. In Owen, Grant and contiguous counties, where drouth had taken a firm hold, a considerable portion of the crop yet remains unset. A heavy rainfall, however, was general on Sunday over the counties of the Bluegrass region and those northward to the Ohio river from Daviess to Mason, relieving the drouth and improving the situation very materially. At Lexington 4.59 inches of rain fell Sunday morning causing considerable damage by washing plowed fields. Shelbyville reported 3.42 inches; Owenton, 1.86; Maysville, 1.47; Mt. Sterling, 1.35; Richmond, 1.06, and Louisville, 2.35. The clear and cool weather prior to these rains enabled farmers to complete the harvesting of wheat, which, though not so good as anticipated, owing to rust and smut and damage by wind and rain, is nearly all in shock in good order. Oats, which are still below the average, have improved during the ripening stage. The harvesting of this crop has commenced in several counties, and will be in progress generally during next week. Corn is advancing rapidly. In most counties the early planted has been laid by in clean and healthy condition. The growth of the late planted is uneven and small, but the crop prospect is very good. Meadows are being cut and some timothy has already fallen before the mower. Pastures are all in excellent condition. Potatoes and gardens generally have improved.

Eastern Section.—The temperature has been lower than usual, with generally clear weather until Saturday, when conditions became unsettled, and local showers were frequent during the remainder of the week. Several correspondents report local storms, with high winds, slightly injuring corn and tobacco. Wheat harvesting has progressed rapidly. This crop will be large and of excellent quality. Corn is in an excellent state of cultivation. Early oats, on good ground, are fair, but, as a rule, the crop will be short. Reports are somewhat conflicting as to tobacco. The dry weather during the setting season reduced the acreage, and in many places the plants are very backward, while in other sections the crop is quite promising. Meadows generally were benefited by the rains. Irish potatoes are very poor, but sweet potatoes are promising. Gardens, as a rule, show improvement. There is a large crop of berries and small fruit. Melons are making good growth.

The interment took place at Shannon cemetery Monday.

The comparative statement of the Louisville and Nashville road, shows that the gross earnings for the third week of June were \$399,935, against \$378,425 for the corresponding week of last year, being an increase of \$21,510. For the three weeks of June the gross earnings show an increase of \$102,520 over those for the corresponding period of last year. From July 1 last up to June 21 the gross earnings show an increase of \$1,479,717. As the fiscal year of the company ends June 30, if the earnings for the fourth week show as large an increase as those for the third week, the gross earnings for the year will show an increase of about \$1,580,000.

ORGANDIES AND DIMITIES.

35c. for 19c. How can we do it? Do it regardless of the loss. On whom the loss falls you are not interested. What you want is the most for your money. Friday and Saturday we offer every French Organdie in our store for 19c. a yard. There is still an excellent assortment and it is the same material whose first of the season price was 35c. Get here early if you want the pick of the lot.

DIMITIES.

The possibilities of money-saving by money-spending has never been better evidenced than in this popular fabric at our cash sale price, 5c. a yard. Please bear in mind that it is not the ordinary cheap goods usually sold at 5c., (we have that kind for 3 1/2c.) but goods manufactured to sell at 15c., 20c., some pieces at 25c. and not one in the lot under 12 1/2c. Two things will instantly impress the most inexperienced shopper when she sees the goods—their quality and their inexpensiveness. 35c. French Organdies at 19c. For 5c., French Dimities ranging in value from 12 1/2c. to 25c. This is no bombastic advertising. As always, we have the goods to prove our promise.

BANK CHECKS.

They Must be Stamped Under the New Revenue Law, and the Drawer Must Do the Stamping.

Under the new revenue law a 2 cent stamp must be put on every check drawn on a bank, and no one is allowed to affix the stamp except the person who draws the check.

The law is as follows, and it is so plain that no one ought to misunderstand it: That if any person or persons shall make, sign or issue, or cause to be made, signed or issued, any instrument, document or paper of any kind or description whatsoever, without the same being duly stamped for denoting the tax thereby imposed thereon, or without having thereon an adhesive stamp to denote said tax, such person or persons shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not more than \$100 at the discretion of the court, and such instrument, document or paper as aforesaid shall not be competent evidence in any court.

It is, therefore, necessary for every check to have a stamp placed on it before it is presented for payment, and no one is authorized to do this except the man who writes it. A merchant out in the State who pays for a bill of goods or makes a settlement by check is the one who must, under the law, put the stamp on the check.

The BULLETIN is authorized to state that the banks of Maysville will comply strictly with the above law.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at J. Jas. Wood's drug store.

BILL OF LADING TAX.

Railroads Entering Cincinnati Will Pay For Stamping the Original—Shippers Must Pay For Duplicates.

The railroads entering Cincinnati have decided to put a revenue stamp on the original bill of lading only, and if shippers want a duplicate and triplicate bill of lading they must furnish the stamps for them. This is to be done on domestic bills of lading.

On shipments for export, which require a 10 cent stamp on each bill of lading, the roads will require the shipper to furnish the stamps if they want through bills of lading, and if they refuse to do this the railroads will give a bill of lading to the seaboard only, and put a 1 cent stamp on the original, and let the steamship companies and the shippers fight it out as to who will pay for the stamps on the foreign bill of lading.

On export shipments three bills of lading at the least are required, which means 30 cents worth of stamps on each shipment, and if a bill of lading is requested by the Customs officials, as is done on certain shipments, four bills of lading are necessary, which means 40 cents.

Wonderful Bargains in Summer Fabrics.

In order to make room on our overcrowded shelves, we have reduced all that is left of our great stock of French and Egyptian tissues—Satin and Silk Striped Gingham to 29c. and 19c. a yard. These are all goods that have sold from 49c. to 69c. a yard, every piece being of this season's purchase, of very choicest designs and superior quality. There's a limit to the quantity, of course, but you can have your choice of 'em as long as they last at the ridiculously low price of 29c. and 19c. a yard.

Underpriced Underwear.

We purchase Underwear in huge quantities direct from the mills, hence we save you the jobber's profit that is included in the ordinary retailer's selling price. We show exceptional values in Ladies' Ribbed Vests at 5c. and 10c. Extra sizes 15c. Great bargains in infant's Lisle Vests at 10c. A great Leader is a Man's Balbriggan Suit, all sizes, at 38c. the Suit.

Homespun For Waists.

This is a high grade of Linen Crash, especially adapted for Ladies' waists and Boys' Suits. Great values at 15c., 18c. and 25c. a yard. We also have an immense line of Dress Crashes at 10c., 15c. and 18c. a yard. All of them big values at little prices.

Miscellaneous Mentionings.

We've no need nor space to say much about our Ladies' Linen Collars at 10c. Up-to-date Military Belts 25c. Leather Belts 10c. to 50c. Belt and Skirt Supporters in Leather or plated, 5c. and 10c. Extra long Pique and Puff Ties, 25c. Silk String Ties, 10c. each, three for 25c. A box of Face Powder and bottle of Perfume Combined, 5c. a box. Buttermilk Soap, three cakes, 10c. a box.

FLAG FUND.

Let's Do the Handsome Thing For Our Soldier Boys—News From Camp Corbin.

Maysville and Mason County should join heartily in the move to present their soldier boys with a handsome flag to carry with them to Cuba, Porto Rico or any other point to which they may be ordered. And the response ought to be prompt, as the colors should be presented before the company leaves Camp Corbin.

The necessary funds could be contributed by a comparatively few citizens, but those who have the matter in charge want as many of our citizens as possible to join in the move, and so suggested 25 cents as the limit of any single subscription.

Hand in your quarters or send them to the BULLETIN office and they will be reported and turned over to the committee. The following have contributed 25 cents each:

Geo. S. Rosser,	M. J. McCarthy,
M. F. Marsh,	John J. Altmeyer,
Jos. Kervin,	Leon Squires,
Walter F. Dinger,	Clarence Mathews,
Sam T. Hickman,	B. W. Goodman,
Thos. M. Luman,	Harry J. Richardson,
Thos. W. Breen,	Wm. O. Outten,
Geo. W. Tudor.

HOLT RICHESON.

Death This Morning Claimed Another One of Maysville's Highly Esteemed Citizens.

Death this morning claimed another one of Maysville's well known business men and highly esteemed citizens.

Mr. Holt Richeson, who was stricken with paralysis a little over two weeks ago, peacefully passed away about 9:15 o'clock at the family residence on West Second street. He rallied slightly for a few days after he was stricken, but for a week or so he had been gradually sinking. Previous to the stroke of paralysis, his health had been failing for several months, but through it all he was ever cheerful and had a pleasant greeting for all.

Deceased was a son of the late John Richeson, and was forty-five years of age. His wife, who was Miss Alice Frank, survives, with one daughter. His mother also survives him, and he leaves two brothers and three sisters. A host of friends throughout the city and county will learn with sincere sorrow of his death.

The funeral arrangements have not been announced.

RESOLUTIONS OF RESPECT.

Action of the Maysville Cemetery Company on the Death of Its Treasurer, the Late W. S. Frank.

At a meeting of the Maysville Cemetery Company June 20th, the following resolutions of respect for W. S. Frank, Esq., were adopted:

WHEREAS, Death has taken from us our worthy Treasurer W. S. Frank; now

Be it Resolved by the Board of Directors of the Maysville Cemetery Company: 1. That in the death of W. S. Frank this association has lost one of its most useful members and most faithful officers, the community has lost a good citizen, the church a noble defender, and his family an affectionate and devoted brother. 2. That during the many years of his association with us as a member of this Board, he has at all times been active and earnest in the discharge of all his duties, and by his wise counsels, his unswerving fidelity, and his zealous efforts has contributed much to the success of this institution, and has deserved and won the thanks of all those interested in its welfare.

Resolved, That these resolutions be spread on the records on a page set apart for that purpose, and a copy be sent to the family of our deceased brother.

THOMAS R. FULTON,
H. L. NEWELL,
C. L. SALLIE,
Committee.

June 20th, 1898.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children have inherited from him no weakness nor tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Not one in a thousand does do it. Germs go through the healthy body without effect. Let them once find lodgment or let them find a weak spot, they will develop by the million and the blood will be full of them. Instead of giving strength to the tissues, it will force upon them innutritious matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't a medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all the germs of disease, and replaces impurities with rich, red blood.

TAXPAYERS

Admonished and Instructed Concerning Stamps.

WASHINGTON, June 28.—In response to numerous inquiries from Collectors of Internal Revenue as to their duties in case of the non-arrival by July 1 of a supply of stamps, the Commissioner has issued a general circular in which he calls attention to the provision in the law contained in Section 13 of the act, which seems to meet the situation.

The language "where no collection district is established" is construed to be the same as if it read "where no stamp agency was established," and when for that reason it was impossible to procure the stamps, and where the failure to affix them was not due to any willful design to defraud the United States, the taxpayer may be relieved by the Collector from payment of the penalty.

It is not insisted that business shall stop, but that legitimate business shall be transacted and the stamps required on goods or instruments of writing disposed of under such circumstances may be affixed by any one holding or interested in the goods. In cases of consumption the retail dealer is required to make a sworn return of the facts to the Collector, who shall assess and collect the tax due. Taxpayers, however, are admonished that this urgency regulation does not in any way excuse them from the duties imposed upon them by the statute with reference to procuring stamps for all instruments and things required to be stamped under schedules A and B of the new act, and neglect to perform any of the requirements thereof, except for unavoidable reasons, will subject the taxpayer to the penalties, provided therein, and they will be strictly enforced.

The singing will be in charge of Prof. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. A splendid addition has been made to the hotel, giving ample accommodation to all. The promenade grounds have been extended, a new stable built and many other improvements made. The grounds are beautiful, and, best of all, there is an abundance of pure water—two large cisterns, three wells, one of which is 150 feet deep, the water of which we have had analyzed, and it contains the following medicinal properties: Total solids, 3.6 to the liter; soluble salts, 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts, 0.44 to the liter; consisting of calcium carbonates with traces of iron.

The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington and Ashland Districts.
